

AIRSTREAM

Dealer Lead Distribution

Pre-Launch Forecast vs. Post-Launch Actuals

Baseline Window

April 2025 - April 2026

Website Launch

May 27, 2026

Post-Launch Window

**May 28 - June 18, 2026
(22 days)**

In advance of the May 2026 website relaunch, Element Three modeled how three changes — form elimination, dealer contact routing, and score-based notifications — would affect the volume and quality of leads delivered to Airstream's 83-dealer network.

This report compares those forecasts against the first 22 days of actual post-launch data.

Scenario Forecast

Three levers modeled for the May 2026 relaunch

Projected Annual Leads by Scenario

Decision Matrix: Three Levers

Form Elimination	Remove gated forms; only ambassador CTAs remain	–25–30%	↑ Higher intent
Dealer Routing	Direct to nearest dealer contact page	Neutral	↑ Faster response
Score Notifications	Alert dealers on Score 3+ leads only	Neutral	↑ Prioritization
Combined (Forecast)	All three levers active	–18–22%	↑ ↑ Significant

AIRSTREAM

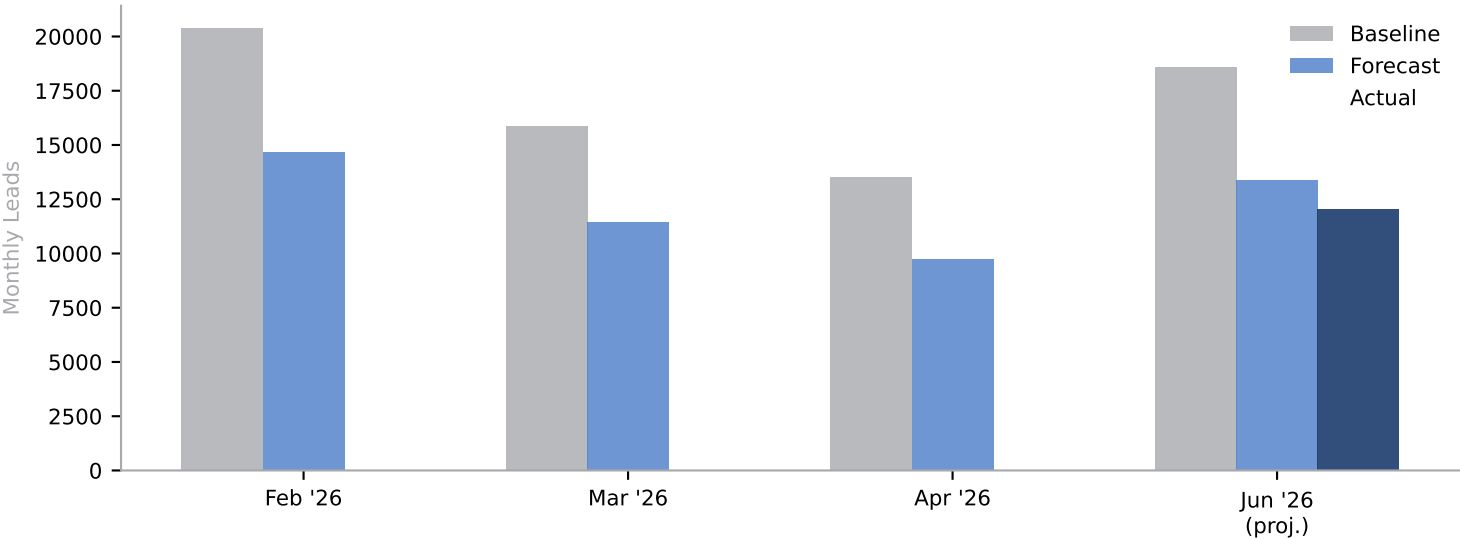

Actuals vs. Forecast

May 28 – June 18, 2026 (22 days post-launch)

Avg Leads / Month	18,593	13,387	12,052
Per Dealer / Month	224.0	161.3	145.2
Score 3+ Rate	8.8%	8.8%	6.1%
Ext. Paid Share	59.8%	N/A	81.2%

- Within 5% of forecast
- 5-15% variance
- >15% variance

Monthly Volume: Baseline vs. Forecast vs. Actual

Note: Post-launch actuals reflect 22 days of data (May 28 – June 18, 2026). Monthly projections are annualized from this window and may not reflect seasonal patterns. Score 3+ rate and source-split metrics are subject to data completeness in the post-launch export. Forecasts assumed form elimination as the sole lever; actual deployment may include routing and notification changes.
